

Evaluating a workshop

We're likely to offer a workshop like this again in the near future, and we'd like your advice on how to improve our materials, methods and approach.

1. Best thing about this workshop? (Something to be sure to leave unchanged if this is offered again)

2. Most important thing to change or add?

3. What's an important topic for the next brief workshop, something you personally want to learn?

4. if you liked this workshop, please write a sentence or short paragraph that could be used to tell colleagues about a future offering. What you write needn't be all positive. And, if you were skeptical initially, feel free to say that, too.

5. We may want to follow-up with you. if you don't mind, please write your name, phone and email below. Thanks!
